My business is with you, let us go somewhere more private.
Raven!

No! Blitz! Raven!

NO! NO! NO! NO! NO!
THUMP!

Credenza, stop it! You're going to break your hand!
No, I have to get through this shield.

I have to save them, and not just because Blitz is my friend, I made a promise.
THUMP!

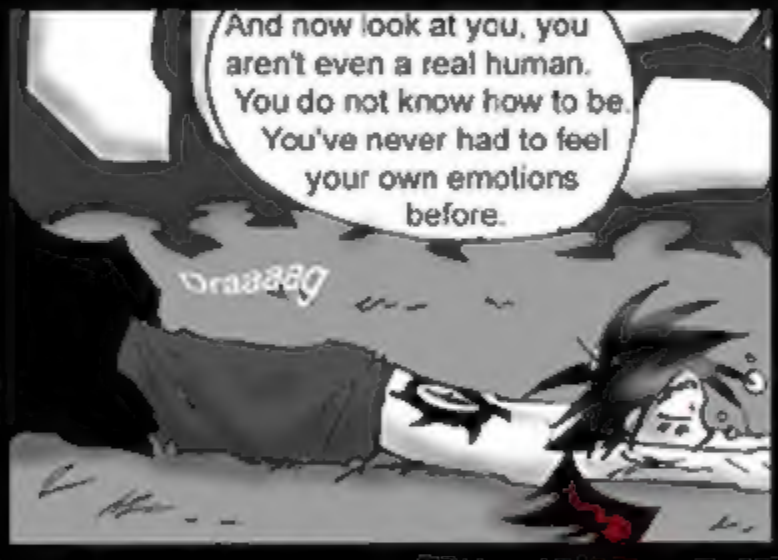
THUMP!
Raven and I have a deal. He trusted me, and I'm not letting him down.

(ping)

SLAM!

What makes you think you even have the *right* to defy master Raven?

TOSS!
THUMP!
He made you perfect! Without sadness, without fear, the ultimate warrior and servant.



And now look at you, you aren't even a real human. You do not know how to be. You've never had to feel your own emotions before.
Draaaag

I am doing you a favor by ending your life. After being a spirit, free of body, mind, and soul, how can you live like this? Trapped within that fleshy shell.

Do you know what that is, coursing through your body? It is fear. One of the emotions Raven shielded you from. Horrible, isn't it?

WHAT!?
BA-DOOM!
Credenza?
Okay, now listen carefully because I'm only saying this once: DROP the man or my fists start flying.

SKRIIIIIEEEE!
Thump!
SMASH!
